FYI. Just realized you may want to be part of these or at least aware. My biggest concern is that ORD seems to be overselling what they are actually doing for us and what products are useable. Hopefully we will get to a good place. I can fill you in.

Just a reminder that for tomorrow's meeting I will be joining by phone from RTP, but for subsequent meetings I will attend in person.

I was thinking our Wednesday July 19 meeting might be a "kick-off" meeting. For me,

the overall goal of these meetings is to ensure any ORD/IRIS training to OPPT/RAD staff aligns with senior management expectations and acceptability.

Specific agenda items:

- Any details on expected content and format of the next round of documents slated for public release?
- Strategy for discussing the workflows being implemented in IRIS to operationalize pragmatic SR. One option is just to go through the various phases of SR over the course of multiple meetings, but I would like to hear from others what would be most helpful and efficient.

Best,

Kris
